School Tax Increase Passes; Santee High School Bond Fails

Permission for the Grossmont Union High School District to raise taxes from $1.25 to $1.50 for each $100 of assessed valuation, was passed Tuesday by a vote of 11,378 to 8,682. Lewis Smith, superintendent of the district, said only 50.01 per cent was required for this part of the school ballot to go over.

The college and high school parts of the ballot failed. This means a junior college which will be operating other the handicap of limited facilities and no high school for Santee, Superintendent Smith said. These two parts of the ballot required a two-thirds majority and both came pretty close.

There were 12,739 yes votes and 7,819 no votes on the $8,000,000 building program for the junior college district. (62 per cent of voters were for it).

61.9 PER CENT YES

There were 12,519 yes votes and 7,719 no votes on the measure asking for $1,800,000 in bonds to finance construction of a high school in Santee. (61.9 per cent of voters were for it).

"This is a very definite blow to both the college and high school program," Superintendent Smith said. "This puts off the acquisition of sites for the college," he said, "and this means that there will be a limited day program and an increase in the evening program because of not enough facilities to accommodate students."

He said that some students in this district now will have to go elsewhere if they wish to attend college.

INTEREST WANING?

In the last general election, Smith said, voters gave a 3-1 approval of formation of a college district. Asked if Tuesday's election returns indicated a sudden decrease in interest in the college, he replied that this was definitely not true.

Of 75,000 voters in the Grossmont School District, only 20,558 turned out to vote Tuesday, Smith pointed out. I strongly believe, he said, that when there's a heavy vote, high enthusiasm is shown for the college.

Election returns indicate that the Lemon Grove area lacked only 170 votes of reaching the two-thirds majority which would have passed the college bond. Smith said returns showed that the school district carried La Mesa and Spring Valley. Voting there on the college bond was:

8,231 yes
4,381 no

Commercial Development Brings Zone Change Here

SAN DIEGO (CNS)—A request for commercial zoning for about two-thirds of an acre on Imperial avenue, northwest of the Lemon Grove area where Broadway, Sweetwater road and Imperial come together, Friday won the approval of the County Planning Commission.

The vote to recommend the zone change, from apartment house zoning, to the County Board of Supervisors was against the advice of the commission committee that studied the site.

The commissioners were persuaded to reverse its committee by the applicant, Leota M. Sa Ville. She said she bought the property for a home in 1948, when it had "a pretty view." But she added that commercial development in the area made it undesirable for apartments, so that she had to sell it for commercial use.

FALLOUT SHELTER PLAN APPROVED

The Lemon Grove Coordinating Council executive board approved the formation of a fallout shelter district Thursday, Dr. Dennis McLaughlin, Council president said this week.

The plan, a pilot program, will depend on federal and state aid to buttress the $150,000 available through local taxes for building underground shelters at the community's six schools and for developing a storage shelter in a canyon north of the Monterey Heights school.

Dr. McLaughlin said that a tax maximum of 50c for each $100 assessed valuation is allowed by law.

He also made it clear that the Council does not intend to form the district. "We want to provide a plan for any interested group seeking to provide community shelters," he said.

McLaughlin said that the Council's legal committee headed by local attorneys Howard Muhleman and Robert Sjogren would aid in processing petitions when and if responsible groups desired to form such a district should request it.

A town-hall type meeting is scheduled by the Council Monday at 7:30 at the L.G. Junior high school.

Oldest Lumber Firm To Be Liquidated

The Lemon Grove Lumber Co., a 50-year-old firm, at 7750 North ave., will be sold at auction Oct. 28, it was announced this week by Henry and Jack Lange, owners of the firm.

The firm was founded in 1911 by Arthur S. Kerfoot, a well-known early day resident. The firm was owned by several other persons until 1955 when the Langes bought it from the Stephen Westover interests. Westover died last week.

The Langes said the real property as well as the business would be liquidated at the auction. Additionally, two lots the firm owns at the northeast corner of North and Main sts., will be sold at the same time.

Henry Lange plans to retire in Long Beach after the sale.

Sixteen Firms Ready With Prizes And Entertainment During SV Center Opening

Spring Valley's own shopping center at Sweetwater and Jamacha rds., on the site of the old La Presa airport, opens this week.

The center, covering more than 20 acres, will mark its opening officially Thursday, Friday and Saturday, Oct. 12, 13 and 14.

Elements of the center have been operating as long as 30 days but the lid-lifting comes this week when the combined merchants' group offers entertainment, prizes, shoppers' specials, free coffee and donuts and all the other things designed to make the shoppers' hearts happier.

RIBBON CUTTING

Ready for the ribbon-cutting which will take place at 9:15 a.m. Thursday are 16 firms. A representative of the developer will cut the ribbon. He will be flanked by local and county dignitaries as well as a brace of beauties, one each representing Lemon Grove, Spring Valley and Casa de Oro.

At 9:30 Joe Sapienza will present an award to the Spring Valley Woman's Club as a gift from the merchants. At the same time, coffee and donuts will be served to the public.

A funny clown will begin his antics at 3:30 p.m. to entertain the youngsters who will be getting out of school. Prize awards will be made to the public all during the day.

On Friday, Dallas Machen of Sav-On Drug Store, will make an award to the La Presa Woman's club. The clown will be back and prizes and awards will be distributed. All during the day fre prizes will be awarded.

AWARD FOR WOMEN

On Saturday Don Brown of Kresge's will make an award to the Casa de Oro Woman's Club and clowns, prizes and free merchandise will be in evidence all day again.

One of the major prizes will be a five-minute shopping tour. A lucky, and happy, homemaker will be allowed to take home without any charge, all the merchandise she can gather up at DeFalco's market in five minutes.

A Norge deepfreeze freezer will be given by the merchants in a major competition held during the opening event.

One of the attractions at the opening will carry a grim, but highly interesting note. It will be a dispplay of a Fox hole fall-out shelter developed by the Chris Arp construction co.

BEAUTY AND CONVENIENCE

In all, the center will combine beauty with shopping convenience. The shopping district is laid out so that a minimum walking distance exists between the wrap-around parking esplanade and the shop.

The center is to be completed in two stages, a spokesman for Pacific Coast Properties, the developers, said.

The first stage is comprised of 134,000 square feet of buildings occupied by the following firms:

Man Pleads Guilty In Assault On Woman

Robert Raymond Nelson, 27, employed by Best Imports Co., was arraigned Oct. 6, in the El Cajon Municipal Court, on a complaint by Mrs. Margie Ruth Gatewood, 3573 Niblick Dr., Brookside, of assault and battery she charged had been committed upon her person by the defendant in the late afternoon of Oct. 4. Nelson was fined $75 with $25 suspended, having pleaded guilty to the charge.

Mrs. Gatewood told the Court she had left her car at a garage at 7926 El Cajon blvd. for repair. She went into Pete's Bar on La Mesa Boulevard, La Mesa, while waiting. There she encountered Robert Raymond Nelson, a former high school classmate of her son, 27. He offered to drive her over to the garage in his pickup truck. She alleged instead of driving to the garage he drove toward Mt. Helix against her wishes. When she demanded to be taken to the garage she averred Nelson got rough and told her if she got smart he would shove a "shiv" in her.

While the truck was driving slowly, she said she jumped out of it, and alleged that Nelson jumped off the truck and struck her across the face three or four times.

An unknown citizen driving along at that moment, Mrs. Gatewood flagged him down and asked to be taken to the La Mesa police. They called the sheriff's department.

KEYS ON SEAT, CAR GONE

Morris Paul Hance, 7872 North Avenue, Lemon Grove, reported to the sheriff's department that while he was visiting at the Sportsman's Club, 3496 Main street, Lemon Grove, some unkonwn removed his '59 Chevrolet Corvette from the parking area, between 9 p.m. and midnight Oct. 6. Hance said he left the keys on the front seat and that the car can be identified by a portion approximately a foot long missing from his right front fender. The car has a red and white strip on the sides.

HIGH SCHOOL ENTERED

The main office, the cafeteria and Room 73 were broken into at Mt. Miguel High School, between 4 p.m. Oct. 7 and 6 p.m. Oct. 8, according to a report made to the Sheriff's Office from the chief custodian of the high school, William T. Melton.

Melton told the sheriff's unit answering the call that at 3 p.m. Oct. 8 he found the rooms specified had been forcibly entered. Pry marks on all the doors showed where the latches had been forced to gain entry. Nothing was missing but considerable damage was done to filing cabinets.

MARAUDER TAKES VALUABLES

Mrs. DeVon Patrick Oliver, of Maxwell road, Jamul, reported to the sheriff's department that someone ransacked her residence sometime between 2 p.m. Sept. 28 and 9:30 a.m. Sept. 30.

The marauder took away a Mitsibushi transistor radio, value $40; a Rolleflex camera, value $250, and a hand-made gold jewel case, value $40.

HUBCAPS LOST

Mrs. Susan Roberts Miller, 2671 Grange, Lemon Grove, parked her '60 Ford Station Wagon in the area around the Lemon Grove Bowlero for an evening of bowling Oct. 2. When she returned to the car she found the hub caps valued at $28, gone.

FORTUNES OF WAR

Joseph Molina Juarez, 7630 Lemon Ave., Lemon Grove, declared to sheriff's deputies when apprehended in an inebriated condition, Oct. 2, that he had been on the Nazi submarines, and also that the blankety-blank Americans can't take it.

He couldn't take the sobriety test, and ended up being booked at the County jail on a charge of drunkenness.

Brown Proclaims Newpaper Week

Past Governor Goodwin Knight was our hope for bringing order out of chaos in state administration. We had hoped that he would tend to his political knitting and become a gubernatorial shoo-in by calling people by their first names while the other candidates became bogged down in name-calling.

This happy condition wasn't to be. Knight observed the muddy water and decided to splash it. Unless he can prove conclusively that one of Nixon's aides offered him a job of his choice, he will have gotten as much mud on himself as he did on Nixon and that would solidify Pat Brown's hold on the governorship despite such friendly labels as "bumbling" and "messed-up" administration.

Brown gained at least a temporary respite from the press by issuing the annual Proclamation for National Newspaper Week, a proclamation made by every California governor since National Newspaper Week began.

It is with respect and admiration that we lay off belaboring Gov. Pat Brown politically for a week while we publish his proclamation.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA
Proclamation

Freedom flourishes in truth. Tyranny thrives in ignorance.

In this critical time in world history, the right of the people to know the truth, in order that they may act wisely and fearlessly, imposes a grave obligation on our nation's press.

(Interestingly enough, the same week the Proclamation came, Brown called a "closed" meeting for his newly formed super-agency.)

It is an obligation our newspapers have met fully.

As Governor of California, it is a privilege for me to join in observing October 15 to 21 as National Newspaper Week in California.

The theme of this year's observance is, "Your Newspaper:

Variance Denied In L.G. Split-Lot Request

SAN DIEGO (CNS) — The opposition of owners of adjacent property at Friday County Planning Commission put a damper on a Lemon Grove man's plans for dividing his double lot and building another house on the second parcel.

Alexander B. McTear applied to the commission for a variance, asking that he be allowed a house 39 feet from the center line of Nathan avenue, instead of the required 50 feet, and 20.7 feet from the rear property line, instead of the required 25 feet.

The McTear residence is at the intersection of Lincoln and Nathan streets. It now has a Lincoln street number, but McTear hoped to have it made a Nathan street residence, so what is now the rear yard could be made into another building site.

As the area is zoned for single family dwellings on sites with an area of 6,000 square feet, he had enough land for two lots. But the front and rear setback variances were needed if his house were to face on Nathan street.

NEIGHBORS PROTEST

The planning commission committee that studied the site recommended the variance be approved, but neighbors protested.

Arthur Shoot said McTear probably was going to put a rental unit on the new lot, which "won't help us."

Commission Chairman Gilbert T. Ray pointed out that McTear could build another house now, so long as he does not divide the property. He said no permission from the commission was needed for that.

Other protests were made by Robert T. Andrews and John Beland. A petition said to be signed by all property owners in the immediate area was filed. The commission denied the request.

YOUTH'S BAIL $10,000 ON SEX CHARGE

Mark Clark, 20, of 5012 Thorne dr., La Mesa, was arraigned Monday in the El Cajon Municipal Court on a charge of attempted rape and forced sex perversion on a 17-year-old Spring Valley girl.

The affair took place in an auto following a party at a friend's house on Citradora st. S.V. The next day she told her parents and they filed the charge against Clark.

Bail was set at $10,000 and a hearing is scheduled for Monday.

Grove Girl, 12, Brings Tennis Honors To LG

Champ Cindy Vogt with Coach Ben Press

A Lemon Grove girl who is only 12 years old helped put this community on the map in the world of tennis by winning in her division at the Pacific Southwest Tennis Tournament in Los Angeles lately. This meet is the second most important one held in the nation, and Cynthia E. Vogt, daughter of Mr. and Mrs. H. Vogt of 8125 Roy st., Lemon Grove, now has unlimited horizons, according to her coach, Ben Press of the Kona Kai Club at Pt. Loma.

Her Los Angeles win was the logical next step in the comet-like sports career of agile Cindy. She won the Arizona State championship and the Southern California one only a few months ago.

"Her horizons are unlimited," Coach Press said this week, when discussing Cindy. "She has a good attitude and great determination," he said, "and she has as much potential as any upcoming player I know of."

Press has been Cindy's coach for two years. He describes his coaching technique as centering on the philosophy: Practice makes perfect. For several years he held the California Intercollegiate Championship.

Answers Grand Jury Criticism

Commissioners Defend Planning Director

SAN DIEGO (CNS) — Th county's planning and zonin operations are being conducte fairly and efficiently, charge of inequities in the laws hav not been proved and Dr. Willi H. Miller is a good adminis trator, the County Planning Commission reported in tw letters filed with the Board o Supervisors, answering County Grand Jury criticisms.

The commission Friday ap proved a communication t Supervisors answering th charges against the "split lot' law, administration of the zon ing laws and actions on interin zoning.

A letter from Gilbert T. Ray commission chairman, was file with Supervisors Thursday, de fending Miller against th grand jury attack on his poo public relations. It called him "an outstanding administrato and technician." His unpopu darity was blamed on his being "in a position which makes it impossible to please everyone."

The efficiency of Miller's work, the letter points out, may be found in the fact that in the last year he made 900 personal decisions on matters where the law gives him auth ority to do so, and that not ne was reversed by the Board f Supervisors.

The letter also points ou hat another 995 items, o hich the planning commissio as called upon to make the ecision, only 2.9 per cent were eversed by the Supervisors.

"It would indicate," the let er said about Miller, "that he s doing an excellent job ir aving such a small percent ge of his actions and the ac ions of the commission re ersed by the Board of Super isors."

ERSONAL ATTACKS

On criticisms of Miller, the etter says nothing can be done bout the actions of unin ormed persons, or those who ave honest differences of opin on, or even those who "wilfully misrepresent the facts," or hose "who criticise the county planning program by personal ttacks on Dr. Miller."

The personal attacks, the let ter goes on, "are unwarranted unfair and contrary to the best public interest." It concludes that the commission believes that Miller is "doing an out standing job in the administra tion of the planning depart ment. As for removing the commission's power over dis missal of Miller, by making him responsible only to Super visors, the commission agreed hat state law gives it the uthority to appoint the plan ning director, so it should con inue to have responsibility fo control and direction over hi activities and the authority t fire him.

To grand jury criticism o lack of co-operation betwee the planning and building in spection departments, the com mission report declares the de partments are separate and dis tinct, but that there is "co ordination and communicatio between these offices just a there is between the planning department and all other coun ty offices having related inter ests."

The six appointed commis sioners admitted that they were unable to agree among themselves as to whether the three ex-officio commissio members should continue t have the right to vote. Thes ex-officio members are Davic K. Speer, road commissioner; Jean L. Vincenz, public works director, and Henry A. Dietz county counsel, all county em ployees. Robert G. Berrey, dep uty county counsel, represents Dietz on the commission.

Monte Vista Defeated 40-0 By Grossmont

by BILL OTT

Grossmont High's fighting Foothillers lived up to pre-season expectations here last Friday as they drubbed Monte Vista's first year Monarchs, 40-0. The Grossmont District League meeting was held on the neutral Helix High field. It was the second time in two weeks that the Foothillers have rolled up 40 points. They dumped Hilltop two weeks ago, 40-12. The Monarchs have a 1-1 overall record after breezing past Poway 27-6 in the first week of play.

The opening kick-off went to Ron Scagliotti, and the flashy halfback, showing some fancy running returned the ball to the 48 yard line. On the first scrimmage play of the game, fullback Bill Grey fumbled and the Fothillers recovered to start their first touchdown march. Bill Young playing the quarterback position for the Grossmonters tossed a 17 yard pass, moving the ball deep into Monte Vista territory. Halfback Joe McKirahan scored the first 'Hiller touchdown on a 4 yard run. Brad Baer's attempt to boot the PAT was blocked by Paul Kistrup.

'HILLER DEFENSE TOUGH

The Monte Vistans were forced to punt on their next series of plays, but a Grossmont defender fumbled the bell and Jim Raines recovered for the visitors on the Grossmont 39. Again the Grossmont defense halted the Monarch, forcing them to punt with a fourth and ten situation. The punt by Rod Westcott sailed to the Foothillers 7 yard line. Jerry Wilson moved the ball out to the Grossmont 34 yard line before the gun sounded with a 6-0 Grossmont lead moving into the second quarter. Steve Adams came up with a big play, with third down and 14 yards to go for the first down, Adams sprinted 15 yards for the first down. With the ball on the Monarch 45 Adams again romped 15 yards moving the ball to the 30. The ball moved to the Monte Vista 20 where Bill Young tossed a 20 yard touchdown pass to Don Renwick. An illegal procedure penalty brought the play back. Young then tossed 22 yards to Wilson for the tally.

County Rejects L.G. Street Lighting Petitions Again

SAN DIEGO (CNS)—A petition seeking formation of a Lemon Grove Lighting District, on both sides of Broadway, between Olive and Grove streets, was returned to the proponents this week to get more signatures. It is a Lemon Grove chamber of commerce project.

The office of the clerk to the Board of Supervisors reported that an assessor's study showed that the petition represented less than 40 per cent of the owners of taxable property in the proposed district.

Bertram MeLees Jr., assistant county counsel, said that the state law regulating the formation of lighting districts provides two different methods of procedure.

When the petitions presented by proponents represent the owners of 60 per cent or more of the taxable property, McLees said, the County Board of Supervisors can form the district by passing a resolution for formation by a four-fifth vote.

But if less than the 60 per cent sign the petition, a public hearing and then an election on formation can be set by the Board, providing 15 taxpayers sign the petitions.

MORE EXPENSIVE

The latter method, inquiry at Civic Center disclosed, would be more costly and involve more time. It might also result in failure to form the district just because the area to be lighted is a business section and might not have any persons eligible to vote.

McLees said the district could not be formed, if there was nobody to vote for it. He also declared that the public hearing and election method requires that proponents post a bond to indemnify the county against any expenses for advertising the public hearing and for holding the election.

A protest of owners representing more than 50 per cent of the taxable property in the proposed district could also kill the project. Taxable property, McLees said, would be both the real property represented by land and buildings and the personal property in stocks and equipment in the business establishments.

Edwin Koester, chamber manager, said that he would get enough signatures to bring the total up to the required amount

Supervisors Must Redistrict

The county board of supervisors must face a moment of truth on or before Dec. 2, that date it becomes mandatory for redistricting the county's supervisorial bailiwicks.

A new state law provides that supervisors shall be guilty of mis-conduct in office if they fail to make boundary changes within a year of the receipt of county population figures from a 10-year census.

The supervisors are required to divide the population of the county into five equal districts with the non-City of S.D. being represented by at least two members.

To fulfill the mis-conduct provisions of the charter, the County Grand Jury would have to file an "accusation" against Board members. This would lead to a Superior Court trial. Being found guilty, a Supervisor would be removed from office, deprived of his right ever to hold any public office again, or to be able to vote.

Each Supervisorial district, based on the 1960 census, should have about 206,000 persons in it. Populations now range from far above to far below this figure: David W. Bird's second district has 292,361;. Dent's third district, 145,056.

Dent, who represents the North Park and East San Diego area, has a district contiguous to both Bird's district and that of Robert C. Cozens', fifth district, the two existing non-City of San Diego districts.

Giving Dent a part of Bird's and Cozens' district would mean dividing the total population of 505,373 in the non-San Diego areas three ways, or 168,458 for each. It is by this that Dent would be given a wedge between the second and fifth districts, perhaps extending to the Imperial County line.

In addition, Dent, Bird and Cozens would then have to have about 38,000 persons in the City of San Diego, to bring their total representation to the 206,000 population each district requires for even division.

Cozens now has 33,771 of San Diego population in his district, in the La Jolla area. He would have to add to that, and Bird, who has 11,835 San Diego city residents in his district, would have a bigger addition to make to bring him up to the 206,000 average. Dent would lose about 107,000 persons in a district that has twice elected him.

The remaining re-districting would be to equalize the areas represented by Frank A. Gibson and De Graff Austin. The former, with 184,982 in his district, represents the Pt. Loma and beach areas, and inland to Clairemont and "Old Town," while Austin's district includes two big military installations, Mission Hills, the business section and out to Logan Hills, on the boundaries of Bird's district.

Austin has 197,000 in his district, but a good share of these are non-voting military personnel. He, too, would like to have some county area, it is reported. However, an extension of Austin's district into the county, around Spring Valley and beyond, would cut into Bird's district almost in the middle, and it is considered doubtful that the veteran South Bay Supervisor would agree.

The negotiating for re-districting is expected to reach some heated moments before Dec. 2, because except for Dent, Board members are reluctant to give up any of the areas providing voters who have put them in office.

A two-thirds vote for redistricting is needed, which means that four of the five Board members have to approve any change. This is expected to be a strong deterrent to any radical boundary alterations.

The charter provides that that failure to re-district, "in the manner provided by the general law" shall be mis-conduct, but the general law, the state law, leaves Board members lots of loop-holes in regard to what is an even distribution of the population.

Topography, geography, "cohesiveness, contiguity, integrity and compactness" of areas and "community of interest" may be off-setting factors when population figures are less than "as nearly equal" that the law also requires.

School Board Asks Legal Opinion On School Error

The knotty problem of who is going to pay for $5,000 worth of decomposed granite at the Mt. Vernon school will have to be decided by county counsel, the L.G. school board opined Monday night.

J. Henry Bender, the contractor on the school, assumed that the decomposed granite listed on the plans was material already installed at the school site and the directions were for merely reshuffling it. So his bid did not include funds for that part of the project.

County counsel will be asked to supply a written decision, classing the error as just that, or requiring the contractor to make good despite his oversight.

The board officially accepted the improvements at the Vista La Mesa, Monterey Heights and San Miguel schools which are completed and now in use.

Junior high school principal Robert Sutton told the board that application had been made to the federal government for funds under the National Defense Act. This Act provides money for certain added school classes such as foreign languages, math or science.

Sutton proposes to teach Spanish at the junior high school and will ask for funds for that purpose.

L.G. 'Restaurant' Serves Over 300,000 Meals

During this school year in Lemon Grove, nearly 305,000 lunches will be served in the elementary schools. "Staggering as this number seems," said Mrs. Ruth Pfister, school lunch supervisor for the district, "it is factual. Our eight lunchrooms provide noon meals to hundreds of pupils daily during the 10-month term."

Mrs. Pfister stated that next week California School Lunch Week will be observed from October 15 to October 21. Locally the observance will acquaint parents and other patrons with the type of meal sold, both through description and through actual "tasting." It also points up the importance of nutrition and its relationship to the physical fitness program outlined by President Kennedy as vital to the nation.

LUNCH FOR 25c

Costing only 25 cents for students in grades one through six, and 30 cents in junior highs, where portions are slightly larger, the hot noon meal at Lemon Grove is always "Type A." Mrs. Pfister explained that "Type A" lunches, the finest possible, provide students with at least one-third of their daily nutritional needs, complete with vitamin C. "Increased vigor and mental alertness result," she continued, "and better health, eating habits, and attitudes result."

School lunch rooms in Lemon Grove serve a greater purpose than filling hungry pupils at noon. Considered an important part of each child's education, the program aims at building strong bodies to complement mental development.

The "welcome mat" is always out to visitors who wish to view this "biggest restaurant in Lemon Grove" in action. Adult meals are 45 cents and 50 cents. Many parents may want to take advantage of the invitation during this second annual California School Lunch Week.

More Join Fray Against Spreading La Presa Industrial Use Zoning

SAN DIEGO (CNS) — Proposals for increased industrial zoning in the La Presa area ran into a stumbling block before the County Board of Supervisors Tuesday, when the representatives of firms and individuals with about $30,000,000 invested in the community protested.

Instead of acting on zone change recommendations made by the planning commission, Supervisors ordered an investigation of what was reported to be zoning violations already in the area, including some by one applicant for re-zoning.

The land affected is in the Quarry road, Jamacha boulevard and Sweetwater road area of La Presa. The applicants for zone changes, from one kind of industrial use to a heavier industrial use, are James E. Reeder and Stephen P. Karo, for two separate parcels of land.

The zone changes have been before the county for a number of months, and the County Planning Commission approved the Reeder zone change request on June 9 and that of Karo on July 14. Both changes must be ratified by the Board of Supervisors, and that body on Sept. 12 put off action to allow a full-scale hearing on Tuesday.

Opposition to the changes of zone have come from persons opposed to any increase in auto wrecking yard operations in the area. Both Karo and Reeder have such plans, and protests were made Tuesday against the burning of boats now reportedly going on in violation of county law.

Reeder was identified as the operator of the boat-burning yard, and Supervisors asked for an investigation.

Those against an increase in industrial zoning included Jim Fletcher, representing Home Federal Savings and Loan Assn. He said this association had $20,000,000 invested in loans on homes within four miles of the area proposed for zone change.

Another who protested was Walter Moore, speaking for the developers of the Spring Valley Shopping Center. He said the investment in this project could amount to $5,000,000. Individual property owners also spoke against the proposed re-zoning.

Bags will be taken to the Goodwill Industries, where the handicapped workers will repair the articles for sale in the various Goodwill stores, one of which is located here.

A Roaring 20's party will be enjoyed by Lions, wives and guests on Oct. 21, at El Morocco, Lemon Grove.

Dear Editor:

I couldn't help but notice the letter from Rev. King berating your paper for its "John Birch flavored editorials" (Kings words). Perhaps the public and Rev. Kings congregation should know that he is typical of several "psuedo liberal" ministers in the vicinity of La Mesa and El Cajon.

These ministers believe the House Committee on Un-American Activities should be abolished and that loyalty oaths are the criminals and traitors, and that if you are anti-communist you are also anti-people. Rev. King vocally expressed his distaste for the film "Operation Abolition" when it was shown in Casa de Oro earlier in the year. At the time he had not seen the film but had somehow drawn his conclusions, apparently from hearsay. There are several factions that favor the abolition of the above mentioned items. The two most powerful are the American Civil Liberties Union and the Communist party. Both of which have consorted with each other over a period of years.

Possibly if some of these Socialist minded, misguided humanitarian ministers would read and absorb more objective material than they have been subjected to they would decide that the HUAC is out to expose only the Communist, all others need have no fear, and that it really isn't so degrading to answer yes or no when the loyalty oath is administered. All it takes is an open mind and a clear conscience.

I hope the good minister has adequate reasons for opposing these issues. I say three cheers for your editorial policy and keep it up, the Rev. Kings are a distinct minority.

Sincerely,
Frank Jackson

BUSY FINGERS

The baby fingers of a little five-year-old in South Spring Valley, finding a loose screen Oct. 3 on the residence of William Craig Deno, 424 Worthington St., Spring Valley, picked on it as baby fingers like to do, and lo! it came open. There was an open window in back, and the youngster climbed in, then ran to the garage door and let in her brother a couple of years older. He was interested only in guns and a hunting knife and spent the time admiring them, he said, but baby sister's feminine curiosity got the better of her. She proceeded to have a wonderful time rummaging through bureau drawers and into closets, leaving a trail of articles on the floor to mark her progress. The lipsticks were a delight. One made wonderful red marks on the rug. She found a paper bag and put in several tubes of lipstick, an assortment of Bandaid strips and a lady's fountain pen. A wonderful haul for a five-year-old! Little brother was apprehended at school, having been noticed lurking around the garage by a neighbor on the day in question; thus the burglary was solved, by the Sheriff's Department.

We have examined the balance sheet—all funds of the Grossmont Hospital District for the year ended June 30, 1961. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying balance sheet—all funds, presents fairly the financial position of each fund of the Grossmont Hospital District at June 30, 1961, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Social Security Question Box

by Dirk Smith

Readers may submit questions of their own to this paper in care of Mr. Smith. Questions may be used in this column.

QUESTION: Could I get social security retirement payments if I should decide to go to a foreign country when I retire?

ANSWER: There are many ifs, ands and buts about a person who plans to leave the United States after retirement. If you are a citizen you will be entitled to continue to receive checks in any foreign country except iron curtain countries. If you are not a citizen, or lose your citizenship, your checks might be stopped after six months residence in a foreign country. We say "might" because in many cases even a non-citizen has continued to receive his checks. For example, if a non-citizen has lived in the United States for 10 years or is a citizen of a country with whom we have a reciprocal agreement or with whom we have certain trade treaties, his residence in a foreign country will not affect his right to benefits. Therefore, if you are a non-citizen and contemplate moving to a foreign country, you should contact your nearest social security office.

QUESTION: I am writing for my husband who is a victim of multiple sclerosis. About a year ago he filled out some papers at the social security office and a little later was told that his disability was severe enough that he could get monthly payments when he became 50 years old; he is now 37. Last week my aunt told me to check with you people because she thinks he can get monthly payments for himself, our two little girls and me. I hope this is true. Is it?

ANSWER: Yes, it is. Beginning with November, 1960, a severely disabled person can receive monthly disability payments regardless of his age. His children can also receive monthly payments if they are either under the age of 18 or are severely disabled. His wife can receive payments if she has at least one of his children in her care.

Mail Delivery Speedup Planned By Post Office For Christmas

SAN FRANCISCO (Spcl) — Predicting that the volume of Christmas mail will be the largest in history and even exceed estimates made earlier this year, the San Francisco Region of the Post Office Department has already been geared for the 1961 holiday rush, Raymond R. Holmquist, regional director, announced today.

"Since we are dependent upon the cooperation of our patrons for the efficient and fast handling of Christmas mail," Holmquist said, "the public should know we have made our plans well in advance of the rush season and that they can be implemented at the proper time."

Holmquist said all of the postmasters in the region, which comprises the states of California, Nevada and Hawaii and the islands of the Pacific under U.S. mandate, have been alerted to the importance of making their Christmas work program "efficient, workable and available to the patrons."

PREPARING NOW

Lemon Grove Postmaster Frenchy Faucher said "We are getting ready to handle the huge overseas Christmas parcel mailing rush right now. These parcels must necessarily be mailed before Nov. 20 to get there in time.

"After that the regular Christmas season rush starts. We are already in the planning stage and have accepted delivery on some additional equipment to speed up mail handling here."

"We are going to solicit the support and cooperation of all types of publicity mediums to inform the public of the necessity and urgency of mailing early to assure Christmas delivery," Holmquist said. "Our policy is that every piece of mail available for regular delivery shall be delivered on Saturday, Dec. 23. No deliveries will be made on Sunday, Dec. 24, and Monday, Dec. 25, except special delivery mail, gift parcels and parcels containing perishable matter.

NO RURAL DELIVERY

"I would like to remind our patrons also that there will be no rural delivery or window service on Sunday, Dec. 24, or Monday, Dec. 25," the regional director said.

Mildred Moran, Spring Valley Postmaster said "We expect to handle an all-time record quantity of mail this holiday season. Our population expansion during the past year has been tremendous and we'll be geared up to handle this volume expeditiously."

Holmquist pointed out that the region is growing in population at the rate of more than 750,000 per year and the volume of mail has increased in an even greater proportion.

GROWTH BRINGS PROBLEMS

"When you add enough people to make a city the size of San Francisco or Washington in a year, you are confronted with new problems almost daily," Holmquist said. "New delivery areas must be opened and staffed, existing facilities must be expanded and personnel made aware of the changes.

"I should like to remind our patrons also of the necessity of complete and legible addressing of mail, particularly Christmas mail. The public can assist us greatly in this manner and if we are to meet our aim of assured Christmas delivery, legible addresses are of vital and imperative importance."

Miguel Juniors Facing Tests And More Tests

Beginning with the Preliminary Scholarship Aptitude test, the juniors of Mount Miguel high school will be confronted with a year of testing, ranging from general ability to preliminary college entrance exams.

The Preliminary Scholarship aptitude test, taken on a voluntary basis only, will be administered October 17 at $1 per student. The purpose of the test is to help the student determine how well he will perform on his college entrance exam.

All English III classes will take the Henman-Nelson test on October 31 at the school. The following day, they will take the TOGA. . .a test of general ability.

On November 15, 16 and 17, eleventh grade students not planning to attend college will be given the GATB battery of tests; this series probes for general abilities.

Another preliminary college entrance exam will be given interested students in December, January, April or March. Students are free to choose whichever date they prefer. The fee for this exam is 7.50.

All juniors will participate in the SCAT-STEP tests in May. No date has been set for the National Merit exam which will be given to college-bound students interested in receiving a national scholarship. Last year Mount Miguel had many national scholarship winners.

Around Our Valley:

News and Views from Spring Valley

By Tommy Thomas

With all this hub-bub about schools, elections, scholarships, what's in store for the future, etc., etc., I hadn't heard too much about adult education until I did a bit of inquiring Around Our Valley and nearby areas.

In speaking to several local people I found out that they are going back to school under the adult education plan of the Grossmont Union High School District, and either brushing up on several subjects or taking on new ones. It's a great thing, believe me, when you can avail yourself of this opportunity.

I got in touch with John Davis, director of adult education for the district, and he told me that this year there are 115 different classes in the adult education program. Last year, with 4,000 registered, there was an average daily attendance of approximately 1,100. Some classes are held in the daytime and others at night. So, you see, there is no excuse for anyone going without some education with such a vast program.

It is nice seeing our good friend Walter Hambly, the Spring Valley, Watkins man back on the job. He and his wife, Betty, just returned from a trip east which took them back to their home town of McComb, Ill., and down into Arkansas, where they visited relatives. At Plymouth, Ill., Betty ran into people with whom she had attended school (back when). They attended several picnics and had a "whale of a time," Walter said. At one picnic there were 4,200 persons served luncheons of pork chops and all the trimmin's.

The Hamblys went east via auto, with a son who had been here on a visit. The return trip was by bus; a new line running from New York to Los Angeles. On the bus lunches are served and you are able to read the latest newspapers and magazines. The fare is just $5 more than the fare on a regular bus.

A birthday party honoring Mrs. W. J. (Mary) Clark of 3915 Bancroft dr., S.V. was held last week at the home of a son and daughter-in-law in El Cajon. Eight guests enjoyed a delicious potluck luncheon and a dip in the new pool.

The night before the party Mrs. Clark received a phone call from her son.

"Wait a minute," he said.

Then Mary heard six young voices singing, "Happy Birthday dear Grandma, Happy Birthday to you."

Mary said she enjoyed the salutation, but wondered what the youngsters were doing up at such a late hour.

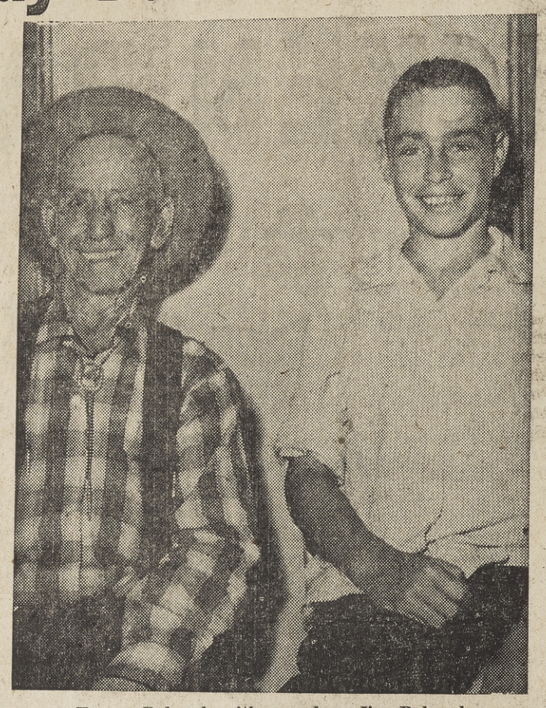
Valley Oldster Babcock Looks Way Back When

A search in Spring Valley for either the oldest person living or the person who's lived there longest, turned up Emery Babcock of 8663 Valencia st. He may not be the oldest but his 69-year residency must certainly establish him as the one who's lived here longest.

Besides, he has a one-month-old grandson, who, with other grandchildren, creates a three-generation tenure in Spring Valley for the Babcock family.

Reporter Betty Seymour, a very well established Valley-ite herself, interviewed Babcock and came up with the following story from this man who moved here with his parents at the age of one.

by BETTY SEYMOUR



Emery Babcock with grandson Jim Babcock

Men hereabouts were dreaming dreams in the 1880's of a thriving town away from the dampness of San Diego Bay, on the dry and healthy hills of the coast range. The first step taken was the building of a dam to catch the waters of Sweetwater River and make Sweetwater Lake. The San Diego and Gila Railroad with headquarters at National City, built a spur out to the high mesa where the hundred foot masonry dam was built to impound the waters for the Sweetwater Water Company, now the California Water and Telephone Company.

The end of the line was La Presa, the Spanish name for The Dam. A post office, a hotel, a general store and perhaps a dozen houses, were built. The first part of the dam was completed in 1888, then it was decided to make it higher, so workmen continued to be hired and the little town of La Presa continued to exist.

In 1891, lured by the tales of big wages being paid here, Charles H. Babcock, with his wife, and young son Emery, came from his native town in New York State, to make the fortune he envisioned in a few years. At the time of his arrival it was true that more money was paid for work in California, than work in New York. The Babcocks drifted from Jamul Ranch, owned by a man known as Leech, and now known as the Daley Ranch, to Lemon Grove and finally to the busy end-of-the-line town of La Presa, with several promoters seeing in their minds' eye, empty land turned into houses.

BOYHOOD MEMORIES

To quote Emery S. Babcock Sr., who wandered over the mesa as a boy: "There was one road and a cowpath in La Presa. East of that lone eucalyptus tree, still standing, but hard to see now on account of the houses, was the end of the railroad with a depot. There was a man named Bailey and his wife living right across from the station in what is now Lakeview, who opened a small store. Just west of that, about 50 feet, was a big building put up for a large general store that was never used for a store. and there was also erected a large building in a grove of eucalyptus meant for a hotel, but it was never used as a hotel.

"A Mrs. Schafer ran the store and Mrs. Reynolds was the postmaster. One night the store burned down with Mrs. Schafer in it, but it was surmised that she had been murdered before the fire, and it remains one of the unsolved crimes of the Spring Valley area ever since."

The dream of the town that was in the eyes of those early folks, Babcock says, is being realized today, and he is glad to have lived long enough to see it. But it was an ironical circumstance that the vital need that held up the La Presa district from growth that was hoped for, was lack of water. A lake full of millions of gallons of water and the residents of La Presa for water depended on a large cistern and a well. In the summer months three neighbors hauled their drinking water for several miles. In real dry weather sometimes the men sneaked a bit from the lake, for the lake was not built to serve La Presa. It belonged to a National City company, and helped to build up the south bay cities of Chula Vista, Bonita and National City. Also Coronado.

WHAT USED TO BE

"At what is now Grand avenue," Babcock continues," a man by the name of Little built a school house on the knoll and a little church near the eucalyptus trees. I went to school there and got tanned many a time. It was just one room with about twelve students, with three rows of seats. Teaching from 1st grade to 9th were teachers, Miss Hoff, Miss Powell and Miss O'Banion. Later there was another school built at Avondale, where I met my wife at a dance.

"Jamacha boulevard then, as now, was the main road to and from Jamul to San Diego by way of La Presa. B. S. Babcock (no relation) who promoted the building of the Sweetwater Dam, owned the Jamul Ranch then and shipped grain and cattle. They used to drive six and eight mule teams along the boulevard to the La Presa depot. Most of the men who had worked on the Sweetwater project were used for the building of Barrett Dam for the Mountain Water Company which Babcock promoted and was later finished by H. A. Savage, the City Engineer of San Diego. He had been consulting engineer for the Sweetwater Water Company.

WATER A PROBLEM

Emery Babcock tells of another dam put up to the east along the Sweetwater River in 1930 and Loveland Lake was formed. But still there was no water for La Presa, except a cistern and water from the Isham Springs, hauled by wagon. Isham Springs was truly the California Waters of Life to the little La Presa Colony. Now and then water was also obtained from the Novita Springs located in the little vale where the La Mesa Airport later was built, but according to Babcock, it was not very satisfactory. "That water," he says, "was as different from the Isham Springs as day is from night, although the two springs were not more than a quarter of a mile apart. The Isham Springs were medicinal and the Novita Springs were full of salts and mineral. H. H. Bancroft ran cattle over the La Presa area and a Mr. Hellidge had the Cuyamaca Railroad track run right straight over to the depot at San Miguel, which was where the California Waters of Life from the Isham Springs was bottled for shipment all over the world.

LEG BROKEN

Bancroft at one time, when he was driving out from San Diego over the La Presa mesa, had his team run away with him, and had his leg broken. Babcock recalls seeing Bancroft several times, and said he was sure a busy man.

In the early twenties Babcock says, a promoting company came down from Los Angeles and tried to revive interest in that section. That was when the streets of Dictionary Hill were laid out. Then the boom which they tried to start all blew up, he said, and the company moved away in disgust saying it is a desert and would never amount to anything. So La Presa went to sleep again with the only water available being from the Isham Springs, (now known as Hanson's Ponds) and an occasional well. Mr. Bolton was the keeper of the Dam and, of course he could get a little water from the lake, so he and his wife grew a little garden.

FIRE AFTERMATH

After the post office and the store in La Presa burned down, Babcock says, they did away with the La Presa post office and people got their mail through either Lemon Grove or Spring Valley, and the Babcock family has been a customer of Uncle Sam for a greater number of years he says, than anyone in Spring Valley—about 67 years.

"La Presa is growing now," concluded Babcock, dandling his granddaughter of three weeks in his arms," and I am glad I've lived long enough to see it get its big start. The formation of the La Presa Water District, by the man Fred Hansen who preserved the Isham Springs, now called Hansen's Ponds, was the trick that did it. If water could have been gotten to that little colony years ago, it would have been a different story.

"But although the town rested, the climate kept right on being good. It is as good today as it was 70 years ago, and while the Babcocks did not make the fortune they'd visioned, they've lived comfortably and well."

The giver of the check was Daniel Britte Bonge, 4225 Whittier st., S.D. which was drawn on the First National Trust and Savings Bank and the check was no good.

Gondek told sheriff's officers that he will prosecute.

Bill Zabel, general chairman for the second annual Spring Valley parade, said he has close to 60 units signed up for the parade. There will be marching units, bands, equestrians, floats and a bevy of beauties along the boulevard. Bill reminds everyone not to forget the pancake breakfast to be served in the Mt. Miguel high school cafeteria, prior to the parade on Nov. 4. Serving time will be from 6:30 a.m. to 9:30 a.m., and the menu, says Frank Berger, breakfast chairman, will be pancakes, bacon and coffee, (milk for the children). OUR MANY THANKS!

To Mr. Larsen, Mrs. Reidburn, Mr. Cobb, and the countless others who rang doorbells, attended meetings, made phone calls, did typing and gave information for the recent bond and tax election. We all owe you a debt of gratitude.

FOOTBALL PLAYERS SELLING CANDY

If your doorbell hasn't already been rung by one of the boys on the Pop Warner Football teams in Spring Valley, it will be. They're selling candy bars for 50 cents and each boy has to sell $20 worth. That takes a lot of selling, but if you try one, you'll want another. My expanding waistline bears witness to the fact that they are good.

October 14, the Pop Warner Carnival will be held in Balboa Stadium. There will be 21 teams playing, about eight minutes each. If you want to have fun watching them have fun, go down and see them.

SV PONY LEAGUE OFFICERS ELECTED

The following were those elected to office in the Women's Auxiliary of the Spring Valley Pony League: president, Mrs. Pegwood; vice president, Mrs. Harkins; treasurer, Mrs. Silva; secretary, Mrs. Bauers. Only one chairman has been appointed, and that is Mrs. Jordan as hospitality chairman.

The ladies' first project will be a bake sale to be held on Oct. 28. The place will be announced later.

STUDENTS AND BOARD TO BE "SHOT" AT AVONDALE

All members of the PTA board wanting to be 'shot,' by camera, that is, be at Avondale School on October 16, at 10:30 a.m. The photographer will be there to take pictures of Avondale students on that day.

AVONDALE PTA MEMBERSHIP GROWING

I am proud to announce that as of Oct. 6, there are 377 members in the Avondale PTA, with more still coming in. Membership will be accepted at any time during the school year, but during the membership week, they will be counted towards the contest between the rooms. The room with the most members will receive tickets for the School Halloween Carnival.

Karl's Shoe store of Spring Valley is the newest of 14 stores in San Diego County, there being 345 in the 11 western states. Karl's was established in Los Angeles in the early 1900s and have had stores in the San Diego area for 32 years. Manager Sutton of the new store has been with the company for 10 years, his last store being in Lemon Grove. Felix Elias is district superintendent.

Gingham Girl Offering 72 Varieties Of Doughnuts

Another family business has opened its doors in the new Spring Valley Shopping Center: the Gingham Girl Doughnut and Waffle Shop, located at 617 Sweetwater Rd. Managers are the Cunningham family: George Cunningham, his wife Dorothy (Dort), their son Mike, and Mr. Cunningham's sister Curley Cunningham. They are here from Detroit, Mich., but Cunningham, who was in the milk business before his present venture, was with the Dairy Mart and served customers in the Lemon Grove area. The family lives in Lomita Village.

The Gingham Girl Doughnut and Waffle Shop, covering a floor space of 1600-square feet, has six people working shifts from 6:30 a.m. (breakfast time) to about 8:30 at night. Open seven days a week, the shop is open on Sunday from 8 to 4. Cunningham said the first day the shop opened there were 320 customers, and the sign had not yet been put up.

WAFFLES, TOO

Gingham Girl has a full line (72 different kinds) of doughnuts, waffles and breakfast rolls. Their specialty is buttermilk doughnuts. They use their own brand of flour, which is "the best in the West," as George Cunningham puts it. The shop also has light lunches, Mrs. Cunningham specializing in home-made soup.

This is the 32nd Gingham Girl shop in California. There is one in Reno.

DOUGHNUT CREW — From left: George Cunningham, Mrs. Cunningham (Dort), Curley Cunningham (George's sister) and son, Mike. Their Gingham Girl Shop specializes in buttermilk doughnuts. All doughnuts are made with the shop's own brand of flour.

Joe Sapienza

Reason for the joint name of the market, is that De Falco recently merged with the Food Giant Co. of Los Angeles, according to Joe Sapienza, local manager.

Manager Joe Sapienza, his wife and three children live on Brookside Circle in Spring Valley. They came to this area from Brooklyn, N.Y. in 1950. Monarchs Trample Poway Titans 27-6

Gillespie Field in El Cajon provided the background for the clash between two newborn schools, Monte Vista High and Poway High. The Monte Vista Monarchs defeated the Poway Titans 27-6.

The Monarchs, coached by Douglas Gorrie, took command in the first quarter when runs by Halfback Ron Scagliotti and Rod Wescott moved the ball downfield to set up their first touchdown. Quarterback Ron Maki took the scoring honors from the two-yard line. Martin Fitzurka kicked the extra point.

Taking advantage of Fullback Bill Gray's interception early in the second quarter, the Monarchs once again moved into scoring position with little resistance from the light Titan line. Scagliotti swept the end for the six-pointer. The kick failed.

Poway was unable to move the ball and punted a good share of the time. One punt ended in the Monarchs' third touchdown, a fifty-yard return by Scagliotti. Fitzurka made the extra point.

Monte Vista's defense was especially sharp, keeping the Titans from penetrating their thirty-yardline for the first half. The half ended with the score 20-0, Monte Vista's favor.

The score remained the same until six plays into the last quarter, when Maki hit end Pat Curren for a thirty-yard pass, and Curren outran the Titan secondary for a touchdown. Again Fitzurka's kick was good.

Poway's Quarterback Daro Quiring took to the air, hitting ends Dan Thipps and Jeff Smith for large gains. Finally Larry Lynch carried the pigskin into the end zone for the score. The point-after touchdown failed. The game ended Monte Vista 27, Poway 6.

Monte Vista's Junior Varsity team also defeated Poway's Junior Varsity team 48-0.

Finelli's Mens Shop Featuring High Styles, Including Ivy Leagues

High-style clothing for men and young men is featured at the Finelli's Mens Stop opening on Thursday of this week at the new Spring Valley Center. The Finelli family's first store in this area opened in Imperial Beach in 1950.

The one at the Center contains 1,400-square feet and contains features Peter Finelli, the owner and manager, has been planning for years. He said his place will specialize in Continental and Ivy League styles and will be open Monday through Saturday from 9:30-9 p.m. and Sundays from 10 a.m. to 5 p.m.

During October, the store is featuring men's high-style Fall suits.

Mr. Finelli has been in the clothing business for 37 years. The store at Spring Valley Center will be operated by his wife, Olive, and his 31-year-old son Pete in addition to himself. The Finelli family contains six children. They are originally from Niagara Falls, New York.

Mr. Finelli said last week that he'd been passing through the South Spring Valley area for years and saw it suddenly start booming. He said that on the day he caught sight of the sign announcing the new center to be built soon and which is now open, he immediately got his firm's name on the list of those comprising the center.

Low-Cost Polio Vaccine Clinics Given For Area

Albert A. Gabbs, San Diego County Chairman of the National Foundation, announced a list of low cost Salk vaccine clinics, none of which would exceed one dollar. Gabbs said "remarkable strides have been made in reducing the number of polio cases this year, however, the fact remains that outbreaks are still possible. Gabbs urged everyone to take advantage of the public Salk clinics and not wait for the Sabin oral live virus vaccine because at this time the latter only gives protection against type I polio, whereas the Salk Vaccine gives protection against all three types.
